

Homework 03: Monogram Collage

Combine botanical illustration depicting your favorite flower or fruit and typographic elements for a collage layout. Merge botanical illustration with a monogram by layering the leaves, flower stems, and petals around the letter, creating a sense of depth and movement in the composition. **Note:** Botanical illustration accurately depicts plants and plant traits for a scientific purpose (Rix 2012), unlike flower painting, which has no other purpose than to be admired. Aim for Creative Commons or Public domain image. **Typeface suggestions:** Georgia, Palatino, Garamond, New York, Bodoni, Minion, Cochin.

Goal: learn how emphasis, unity, direction, and simultaneous contrast work together to produce a harmonious layout. Explore composition principles. Reinforce understanding of gestalt. Master background isolation and layer masks.

Software: Photoshop for image adjustments, and masking. Software of your choice for the package organization.

Elements: botanical illustration (source image width: 1200px or more), typography. Text: capital letter (monogram), Latin name, symbolic meaning. For example, capital letter P (for Plum, favorite fruit) - Prunus Salicina (Latin name) - Youthfulness (symbolism). Optional element: background texture, frame.

Deliverables

Page 1: submission checklist

Page 2: collage layout (4:5 ratio)

Page 3-4: comp of the image with the dimensions in pixels and image credits, RYB color wheel and color palette with CMYK values; symbolic meaning excerpt and source; comments.

Page 5: at least three sketches for layout experimenting with a variety of composition/balance
Digital submission only (Canvas).

Concept & Ideation:	%
The image, typography and the meaning of a plant choice are coordinated. Composition supports the message.	10
Botanical illustration is used. Monogram, Latin name, and symbolic meaning are included in the collage.	15
Design principles:	
Background and foreground elements are in the harmonious agreement. Simultaneous contrast.	10
Effective use of free space, balance, movement, depth, mass, emphasis, gestalts for the whole layout and for the typographic part. The emphasis is on the monogram letter. The layer effects are in agreement with the layout.	15
Meaningful comments on composition principles, balance, movement, emphasis, gestalt and contrast provided. Dominating color harmony and feel are properly defined (account for the contrast of extension).	15
Technical skills:	
Image brightness, hue and saturation parameters are adjusted with Photoshop if needed. No raster or blur is visible. The image dimensions correspond with the specifications (minimal width - 1200px)	10
Quality isolation, effective use of layer masking. There are at least 5 top layer elements (overlaps). The overlaps should be "natural" - crate the effect of layering rather than "piercing."	15
The monogram has visible layer effect(s) applied.	5
Background is adjusted/cleaned up/filled effectively.	5
Total	100

Incomplete submission (points are reduced based on the number of deliverables missed).

Assignments completed by less than 50% will be marked "Late"

Discussion comments are missed or are not meaningful (-5%) or Late submission (-10%)

Rosa

Love, gratitude, admiration, and innocence

Homework 3: Monogram Collage

- Image

- Image Dimensions: 208 x 300 pixels.
- RYB Color Wheel and CMYK Palette: The RYB (Red-Yellow-Blue) color model is traditionally used in art, while CMYK (Cyan-Magenta-Yellow-Key/Black) is common in printing. The CMYK palette for pink roses includes shades like Bulgarian Rose (#4C0606), Rose Garnet (#86003C), Vivid Cerise (#E41F7B), Salmon Pink (#FF8BA0), and Melon (#FFB6B3).
- Symbolic meaning: Pink roses symbolize love, gratitude, admiration, and innocence. They are associated with femininity, grace, and thoughtfulness. Historically, pink roses were cultivated as symbols of gentleness and purity. They were prominent in Victorian floriography to express delicate emotions like gratitude and affection.
- Image Source and Comment: The illustration is a botanical artwork by Pierre-Joseph Redouté, a renowned 19th-century artist specializing in detailed watercolor paintings of flowers.
